**Sunday at 6:00PM (New Time)  
His Name is the Lord of Hosts  
Pastor Preston**

Amos 4:13: <sup>13</sup>For behold, He Who forms the mountains and creates the wind and declares to man what is his thought, Who makes the morning darkness and treads on the heights of the earth--the Lord, the God of hosts, is His name!

Life continues to bring circumstances to God's children that present themselves as the final word: sickness, depression, debt, hopelessness, worry, and fear. God wants

**Apostle/Prophet  
Frankie Lovett**

**Our Hope of  
Deliverance and  
Victory is our  
Confession and  
Belief in Jesus.**

God wants His Word to be relevant in our lives so we can walk in freedom

us to remember that He is the one who created our new beginnings, our destinies, our restorations and our blessings. God's Word says that even if we fall seven times, He lifts us back up. Over time, we are going to experience some mountains and some valleys. The issue of the heart is whether we will continue to love Him regardless of our life condition. His Son Jesus was sacrificed not only to save and to bless His children, He was sent to show us the standard for living our lives. Faithfulness, honor, truth, love, oneness and obedience is what the Lord of Hosts deserves from His children. Let us call upon the blessings of God and also choose to love Him and walk in His ways. Amen

### The Bitter Side of Artificial Sweeteners showing up in our Drinking Water Supply

Sewage treatment plants fail to remove artificial sweeteners completely from waste water. These pollutants contaminate waters downstream, and may still be present in your drinking water. A new, robust analytical method, which simultaneously extracts and analyzes seven commonly used artificial sweeteners, demonstrated the presence of several artificial sweeteners in waste water. Until now, only sucralose has been detected in aquatic environments. Through the use of the new method, researchers were able to show for the first time that four artificial sweeteners -- acesulfame, saccharin, cyclamate, and sucralose -- are present in the waters from sewage treatment plants, indicating incomplete elimination during waste water treatment.

and joy. To make this happen, we have to come into agreement with His Blood and the gifts that are available for God's children. God's Word can not lie so it is important to discover His grace and fullness prepared for His glory. We must learn not to confess the evil report and instead learn to be faithful to release faith that lines up with His character. Come and bring a friend to be inspired to speak and agree with the Word of God to overcome your circumstances. For more information about Frankie's ministry: [www.rmnpi.org](http://www.rmnpi.org).

### Praise Reports

#### Breakthrough after Last Week's Prayers

I was going through a horrific time and it seemed like everything that could go wrong was knocking at my door. A person shared a message of hope and restoration at the meeting. This week when the pressures began to creep over me, I remembered the message and became bold in my prayers. The Lord honored His Word and the hindrances in my life fell to the wayside and blessing began to overtake me. I am so filled with the joy of deliverance that Jesus provided for me. Amen

#### Bad Report turned good for His Glory

We had received a negative report that was going to bring much suffering and take a lot of money to overcome. We left with a heaviness that tried to settle over us. We were reminded that God wanted us to believe His report and come

## 5 Powerful Reasons to Eat More Slowly

Many people rush through the day, with no time for anything. When they have time to get a bite to eat, they gobble it down. That leads to stressful, unhealthy living. Here are some reasons you should consider the simple act of eating slower: 1. Lose weight. A growing number of studies confirm that just by eating slower, you'll consume fewer calories -- in fact, enough to lose 20 pounds a year without doing anything different or eating anything different. It takes about 20 minutes for your brain to register that you're full. If you eat fast, you can continue eating past the point where you're actually full. 2. Enjoy your food. It's hard to enjoy your food if it goes by too quickly. Make your meals a gastronomic pleasure, not a thing you do rushed, between stressful events. 3. Better digestion. If you eat slower, you'll chew your food better, which leads to better digestion. Digestion actually starts in the mouth, so the more work you do up there, the less you'll have to do in your stomach. 4. Less stress. Eating slowly, and paying attention to our eating, can be a great form of mindfulness exercise. Be in the moment, rather than rushing through a meal thinking about what you need to do next. 5. Rebel against fast food and fast life. A hectic, fast-paced, stressful, chaotic lives -- the Fast Life -- leads to eating Fast Food, and eating it quickly. Rebel against that entire lifestyle and philosophy with the small act of eating slower.

into agreement with His healing blood. We were scheduled to go back for more tests to confirm the procedure. We kept confessing that healing had come to our house. When we got the finalized test results back, God had brought the healing and the evil report became a praise report. Thank You Jesus for confirming Your Word for our healing and restoration. Amen

### Word of Knowledge and Understanding

I was trying to fix a three wheeler that was given to me. Several mechanics had tried to fix it without success. I asked the Lord and He told me exactly what to do like following a road map. One step after another and now we are enjoying the three wheeler for His glory. God helped me to restore what couldn't be restored by experts because He loved me. Amen
